7 Uponor Radiant Floor Heating

Uponor offers two different radiant floor heat-

ing solutions for remodels and retrofits. The Radiant Ready 30E is a complete radiant mechanical room designed in a compact, pre-assembled, easy-to-install panel—just hang the panel on a wall and connect the tubing, thermostat, and electrical power. The Fast Trak system is a series of knobbed mats that make for faster, easier installation of PEX tubing in overpour applications anywhere in the home; available models include Fast Trak 0.5 and Fast Trak 1.3i.

8 American Standard Tile Redi Shower Bases

These prepitched, tileable shower pans from American Standard are simple to install and can be tiled the same day, eliminating construction delays. Tile or stone can be applied directly to the base surface. Styles include Redi Base with round drain cover; Redi Free with barrier-free entrance; and Redi Trench with integrated trench and drain. All Tile Redi bases include 2-inch PVC

drain, adjustable stainless steel drain and tile-setting materials.

9 TOTO AERO Shower System

The AERO shower system from TOTO includes overhead rain showers, handshowers, and bodysprays. The overhead rain shower uses air-injection technology to increase the volume of water in each shower head, which decreases total water consumption. The handshower and bodyspray feature TOTO's Gyrostream water massage function. For the handshower, users can choose from a sprayface with Gyrostream, air injection, cascading flow, or a sprayface with a traditional showerhead. All three elements are offered in Contemporary and Traditional design.
