

## TILE REDI ADDS SHOWER PRODUCTS, VALUE, WITH MORE TO COME

**T**ILE REDI®, A GLOBAL LEADER IN THE MANUFACTURING OF PRE-FORMED, ONE PIECE SHOWER PANS FOR TIME AND LABOR SAVING INSTALLATIONS, HAS CONTINUED TO ADD INNOVATIVE PRODUCTS TO ITS COLLECTION OF TILE REDI SHOWER PRODUCTS.

In addition to its one-piece, pre-formed shower modules for new showers or to replace old ones, Tile Redi has recently bolstered its system with Redi-Flash, Redi-Niche Shampoo & Soap Dishes, Tile Redi Designer Drain Plates with more new products and components coming soon.

Redi-Flash has been designed to protect the small area between the top of the Tile Redi shower pan splash wall and the showers backer-board substrate. Redi-Flash is an aluminum guard that sits on top of the of the shower pan and rests flush against the substrate, eliminating the potential threat of shower water overflowing the splash wall or penetrating down behind the finished tile work.

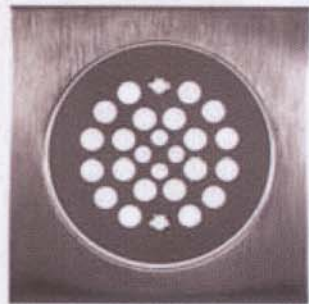

Tile Redi has also added to its product mix with the launch of the Redi-Niche™ line of pre-formed shampoo and soap niches in a variety of sizes for time and labor-saving shower installations. Engineered and designed to be the best product of its kind on the market, the Tile Redi® Redi-Niche product is a quick and easy to install system that is immediately ready to receive ceramic, porcelain, glass, or natural stone tile surfaces. The upscale look provided by Redi-Niche one-piece shampoo and soap niches also acts to inhibit the growth of mold and mildew by eliminating the threat of moisture penetrating behind the finished tile work.

Tile Redi has launched an exclusive line of designer drain plates for a perfect fit when used in combination with the company's easy-to-install waterproof shower pans with its Tile Redi Designer Drain Plates. Since all Tile Redi shower pans allow ceramic, glass or stone tiles to be adhered directly to the surface, each drain is manufactured in a square form, rather than a circle, to make the drain easier to tile around. The designer drain plates are available in 18 variations of the standard base colors, including

Black, Brass, Bronze, Chrome, Copper, Nickel and White, in order to match the existing hardware in the bathroom.

Tile Redi's patented and UL-listed shower pans come standard with seven-inch splash walls, and can now provide even further protection from the potential of harmful moisture penetration if the Redi-Flash option is requested. Architects, specifiers, developers and hotel resort chains replacing existing showers can simply request that Redi-Flash, Redi-Niche, or Tile Redi Designer Drain Plates be included in the package with each shower module ordered from Tile Redi.

Tile Redi patented and UL-listed shower pans are manufactured as pre-formed, one-piece molded shower modules. Complete with fully integrated drains, curbs and splash walls, each leak-proof unit is pre-pitched for easy drainage. By solving water intrusion problems, Tile Redi shower pans inhibit the growth of mold and mildew. For further information, please contact Tile Redi, 4450 NW 126th Avenue, Suite 101, Coral Springs, FL 33065. Call 800-232-6156 or visit the web at [www.tileredi.com](http://www.tileredi.com).
