

TILE REDI BRINGS SHOWER KITS TO MARKET

Posted on August 19, 2014 by davidc@ccr-mag.com

For Immediate Release: Tile Redi[®], leading manufacturer and marketer of leak-proof, tile-able one-piece shower pans and related products, has taken the guess work out of measuring and choosing one's shower pan and shower bench with Base'N Bench[™] Shower Kits. Specifically sized to fit the footprint of the bathtub to be removed, installation is simple. Simply measure the length and depth of the shower space, note the drain location, and then choose the corresponding model. The shower pan and shower bench are sized to work together in leak-proof, Ready-to-Tile[™] harmony, creating a beautiful, new designer shower. Selecting the shower pan featuring the design and function for the renovated, new shower is easy when considering the attractive and high-performance components that are offered:

- The award-winning Redi Trench[®] – the industry's only one-piece, Ready-to-Tile[™] shower pan with an integrated linear trench drain and choice of a tile-able drain top or designer linear grate top to complement any bathroom design.
- WonderFall Trench[™] – for the latest in designer showers, choose an Infinity Shower Floor[™]. A one-piece, Ready-to-Tile[™] shower base with an integrated linear trench drain and tile-able drain top.
- Wonder Drain[®] featuring a square tile-able drain top that makes the drain invisible; a beautiful, tiled shower floor is all that ultimately can be seen.
- Redi Base[®] – the original one-piece, Ready-to-Tile shower base.
- Redi Bench[®] will fit the shower pan, and when built into the overall design, will provide a safe place when one is using the shower. All components offer the industry-leading Tile Redi[®] brand features that have always been synonymous with fast and easy installation... and, no leaks! For more info visit www.tileredi.com.
